## OBJECTIVE

---

Front-End Software Engineer with 4+ years of experience in Angular and responsive web applications, eager to drive innovation, optimize performance, and enhance user experiences in agile environments, with additional back-end knowledge in Python and Node.js for full-stack collaboration.

## WORK EXPERIENCE

---

### Software Engineer

*Enstack — BGC, Taguig City, NCR*

April/2025 – Present

- Developed and maintained full-stack features for the Enstack app (iOS, Android) and webstore, working across front-end (Angular, Ionic) and back-end (Python, Django, Flask, REST APIs).
- Resolved 70+ UI/UX, functional, and API issues (including Django and Flask endpoints), significantly improving system reliability and user experience.
- Implemented internationalization (i18n) support for the Thailand version, covering front-end translation handling and backend API integration.
- Collaborated with the product team and operations team to deliver scalable and secure solutions.
- Technologies: Angular, Ionic, Capacitor, TypeScript, Python, Django, Flask, REST APIs, HTML, CSS, Git, Figma, PostgreSQL

### Software Developer

*Computer Professionals Inc. — Pasig City, NCR*

January/2023 – March/2025

- Spearheaded front-end development for Allianz PNB Life, converting 30+ detailed UI designs into seamless, responsive web applications using modern technologies.
- Upgraded Angular framework from version 15 to 18 in one of the projects, including updating 5+ related libraries to their latest compatible versions, optimizing performance, ensuring compatibility, and to enhance scalability and maintainability.
- Collaborated very closely with back-end developers to integrate robust APIs, ensuring smooth data flow and functionality across platforms.
- Led the front-end development team in the absence of the team lead, driving timely project delivery and maintaining high coding standards through collaborative code reviews.
- Technologies: Angular, TypeScript, HTML, CSS, Git, Jenkins, Figma

### Junior Software Developer

*Computer Professionals Inc. — San Juan City, NCR*

March/2021 – December/2022

- Contributed to full-stack development for BPI/MS, creating 15+ Angular modules, supporting backend queries, and integrating advanced security features to enhance reliability.
- Enhanced the online sales portal with improved UI/UX, ensuring a consistent and user-friendly experience.
- Technologies: HTML, CSS, Angular, TypeScript, MySQL, Node.js, AWS, Git

### Developer Trainee

*Computer Professionals Inc. — San Juan City, NCR*

January/2021 – March/2021

## QUALIFICATIONS & SKILLS

---

- Front-End Development:** Angular, Ionic, Capacitor, HTML, CSS, JavaScript, TypeScript, Responsive Design, UI/UX Implementation, Performance Optimization
- Back-End Development:** Python (Django, Flask), Node.js (Express.js), REST APIs
- Databases:** MySQL, PostgreSQL, MongoDB
- Programming Languages:** TypeScript, JavaScript, Python, Java
- DevOps & Tools:** Git, GitHub, Jenkins, AWS, Docker
- Collaboration & Project Management:** Jira, Scrum, ClickUp, Figma

## EDUCATION

---

Bachelor of Science in Computer Engineering

Pamantasan ng Lungsod ng Maynila

2015 – 2020
